Passionate B Tech Electrical Engineering student good foundation in programming languages, problem-solving, and mathematics, seeking an internship opportunity in the technology and software field. Eager to apply my knowledge and passion to gain hands-on experience.

EDUCATION

vignan institute of information and technology

Bachelor of technology (Electrical and Electronics Engineering) | CGP – 60%

2021- current

Sri chaitanya junior college

Intermediate | MPC | Total - 90%

2019 - 2021

EXPERIENCE

MVK Transformers,vizag – (internship)

may 2023 - june 2023

- I acquired knowledge about the transformers during my internship.
- I Acquired knowledge about the how transformers are tested.
- I gained knowledge about the different types of transformers and their components.

PROJECTS

- Completed a project on gas leakage and fire detection with automatic power of supply.
- Good soft skills like communication skills, leadership skills, time management .
- Developed a method to measure water through a flow sensor.
- Created an IEEE student chapter website with the use of HTML,CSS.

PERSONAL TRAITS

- Work ethic organized
- Adaptable
- Confidence
- Communication skills
- Creative thinker
- Problem solving

ACHIEVEMENTS

- Completed internship at mvk transformer and made project based on gas leakage and fire detection with automatic power of supply.

SKILLS

Skills: Programing lanaguages, Front-end development, DBMS, aptitude, knowledge in circuit design, problem Solving, leadership skills.
